/瑞士电子与微技术中心·微电子宣讲会，全球四地巡回·上海站/

手腕上的微电子技术 50 年的发展历程：从第一款可穿戴到超连接世界

50 Years of Microelectronics on the Wrist - From the First Wearable to a Hyperconnected World

我们诚挚地邀请您参加瑞士 CSEM 微电子宣讲会，了解瑞士微电子的发展和进行技术及商务交流，并籍此纪念瑞士 CSEM 研发的全球首个可穿戴设备诞生 50 周年。

We are pleased to invite you to celebrate together this 50th anniversary at

CSEM Technology Workshop

Networking Reception for the Participants

时间 | Time

上海，2017 年 11 月 27 日 13:30

Shanghai on November 27, 2017 13:30

地点 | Address

上海市嘉定区平城路 1455 号新微大厦 A 座 2 层会议厅（地铁 11 号线嘉定北站 1 号口 100 米附近）

Xinwei Building A, Floor 2, Conference Hall, Pingcheng Road 1455, Jiading District, Shanghai (100 meters near North Jiading Station, Subway Line #11)

主办单位 | Organizer

瑞士电子与微技术中心	**CSEM, Centre Suisse d'Electronique et de Microtechnique**
瑞士联邦政府科技文化中心	**Swissnex China (Swiss Technology Consulate)**
上海新微科技发展有限公司	**SIMIC InnoSpring**
福州物联网开放实验室	**FIOT-LAB, Fuzhou Internet of Things Open Lab**

关于庆典 | The Celebration

位于瑞士纳沙泰尔市的瑞士电子与微技术中心CSEM的前身瑞士电子制表中心CEH，于50年前曾制造了世界上第一块石英手表“Beta 1”，确切的说是世界上第一款可穿戴设备。

瑞士电子与微技术中心（CSEM）借纪念该里程碑式的创举在全球四个重要经济体（旧金山、东京、上海、台北）的国际科技中心举办巡回宣讲会，此次上海站将协同其合作伙伴，瑞士联邦政府科技文化中心（Swissnex China）、上海新微科技发展有限公司（SIMIC InnoSpring）、以及福州物联网开放实验室（FIOT-LAB）一起举办此次庆典活动。

The Beta 1, created at the Centre Electronique Horloger (CEH) — the forerunner of CSEM — in Neuchâtel, Switzerland, was the world’s first quartz wristwatch; thus indeed the world’s first wearable device.

Together with its partners, the Swissnex China (the Swiss Technology Consulate), SIMIC-InnoSpring and FIOT-LAB, CSEM is celebrating this milestone with a tour in four major economy, science and technology international hubs – starting in July in San Francisco, followed by Tokyo, Shanghai, and Taipei.

年表 | CHRONOLOGY

- 1965年7月7日 - 正式推出石英手表项目。
- 1965年11月26日 - CEH总监Roger Wellinger宣布“montre-bracelet quartz”（“石英手表”）成为战略目标。
- 1967年7月31日 - 装配完成第一块可完全运行的石英手表。
- 1967年8月13日 - 将世界上第一个石英手表“Beta 1”交付给纳沙泰尔市观测所，以“精密计时腕表Chronomètres-bracelet”类别进行测试。
- 1967年计时赛中，CEH的Beta原型排在前十名。

- **May 7, 1965 — Official launch of the quartz wristwatch project.**
- **November 26, 1965 — Roger Wellinger, CEH’s director, declares the “montre-bracelet quartz” (“quartz bracelet watch”) to be a strategic goal.**
- **July 31, 1967 — Assembly of the first fully operational and complete quartz wristwatch.**
- **August 13, 1967 — Delivery of the world’s first quartz wristwatch, Beta 1, to the Observatory of Neuchâtel, for testing in the category “Chronomètres-bracelet.”**
- **At the 1967 chronometry competition, CEH’s Beta prototypes swept the top 10 spots.**

关于 CSEM | About CSEM

管理和促进创新，将突破性的基础研究转化为先进的流程，引导创新产品，帮助行业和社会为未来作好准备。

Managing and fostering innovation to convert groundbreaking basic research into advanced processes, leading to innovative products and helping industry and society prepare for the future.

历史

由于瑞士联邦有远见的计划，CSEM 的成功故事始于 20 世纪 80 年代初。

History

CSEM’s success story began in the early 1980s as a result of the visionary plans of the Swiss Confederation.

远景

倡导产业创新，保持我们作为破坏性微工程技术转让的基石。

Vision

Championing industrial innovation and maintaining our role as a cornerstone in the transfer of disruptive microengineering technologies.

运营

CSEM 是一个研究和技术组织（RTO）和一个 PPP 公私伙伴关系模式。

Governance

CSEM is a research and technology organization (RTO) and a public–private partnership.

合作伙伴

建立联盟和战略伙伴关系对于应对技术创新和产品开发周期的快速发展至关重要。

Partnerships

Building alliances and strategic partnerships is vital to coping with the fast pace of technological innovation and product development cycles.

初创企业

基于 CSEM 技术的创业或合资企业有助于瑞士，以及成熟行业和新兴行业的经济活力。

Start-ups

Start-ups or joint-ventures based on CSEM technologies contribute to the economic vitality of Switzerland and of established and emerging industries.

认证

CSEM 已经被评价且被证实兑现了其承诺的最佳实践，效率和可持续性。

Certifications

CSEM has been assessed and is certified as a demonstration of its commitment to best practice, efficiency, and sustainability.

CSEM的前身50年前就具备远见卓识，
CSEM承前启后，将继续以长远的目光去打造明天的世界

CSEM’s predecessor was visionary 50 years ago,
CSEM continues to be visionary today to build tomorrow’s world

50 YEARS OF MICRO ELECTRONICS ON THE WRIST

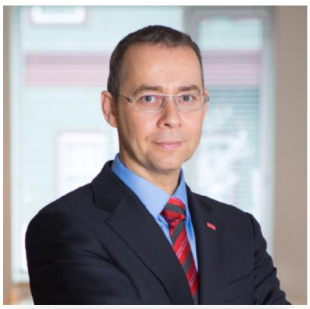
会议议程 | Program

13:30	**会议签到注册**	**Registration**
14:00	**欢迎致辞** *Felix Moesner 博士，瑞士联邦政府科技文化中心*	**Welcome address** *Dr. Felix Moesner, CEO of Swissnex in China*
14:10	**重要致辞** *任佳，新微创源总经理* *高腾博士，福州物联网开放实验室总裁*	**Keynote address** *Mr. John Ren, SIMIC InnoSpring* *Dr. Teng Gao, FIOT-LAB*
14:30	**重要演讲** “从电子手表到纳米技术：20 世纪 60 年代以来瑞士微技术工业的技术融合和多样化” *Pierre-Yves Donzé教授，Osaka 大学商业史经济研究院*	**Keynote speech** "From electronic watches to nanotechnology: technology convergence and diversification in the Swiss microtechnics industry since the 1960s" *Prof. Pierre-Yves Donzé, Professor of Business History Graduate School of Economics, Osaka University*
14:50	**CSEM 介绍演讲** • CSEM：瑞士的技术引领者，全球创新第一；*Georges Kotrotsios* • 1967 年的远见，今天的远景，从 50 年前的首个可穿戴设备：第一块瑞士石英手表讲起；*Alain-Serge Porret* • 超阈值——亚阈值：亚阈值电子器件，超低功耗设备；*Stéphane Emery*	**CSEM introductory talks** • CSEM: a technology leader in Switzerland, world’ s number 1 in innovation, *Georges Kotrotsios* • Visionary in 1967, visionary today, 50 years from the first wearable ever: the first Swiss quartz watch, *Alain-Serge Porret* • Super T – Sub T: Subthreshold electronics, the ultimate low power devices, *Stéphane Emery*
15:40	**茶歇**	**Networking coffee break**

50 YEARS OF MICRO ELECTRONICS ON THE WRIST

16:00	**CSEM 产业伙伴演讲** • IoT 和可穿戴的先进半导体技术 *Liang-fu Lo, 总监（亚韩商务）三重富士通半导体公司* • 蓝牙网格：改进 or 改革？*Jian (Derek) Li, 区域销售经理 CEVA, Inc.*	**CSEM Industrial partners** • Advanced semiconductor technologies for IOT and wearables *Liang-fu Lo, Director (Asia & Korea Business), Mie Fujitsu Semiconductor* • Bluetooth Mesh: Evolution or Revolution? *Jian (Derek) Li, Regional Sales Manager, Ceva*
16:30	**CSEM 技术分享** • 紧凑型智能视觉系统的机器学习, *Andrea Dunbar* • 系统级芯片：集成智能, *Stéphane Emery* • 面向未来的微系统，超小型化自动化物体：处理、通信和供能, *Simon Gray* • 连接，未来增强人类, *Alain Porret*	**CSEM technology talks** • Machine learning for compact intelligent vision systems: *Andrea Dunbar* • Systems on Chip : Integrated Intelligence, *Stéphane Emery* • Microsystems for the IOT of tomorrow, ultra-miniaturized autonomous objects: processing, communication and powering, *Simon Gray* • Connected, Augmented Human in the future, *Alain Porret*
17:30	**圆桌论坛**	**Round table**
18:00	**展台讨论及商务交流茶会**	**Demonstrators and networking reception**

部分演讲嘉宾简介 | Speakers



Felix Moesner 博士是瑞士中国和瑞士领事的首席执行官。瑞士中国成立于 2008 年，是波士顿（2000），旧金山（2003），印度（2009），巴西（2013 年）和阿斯塔纳（2017 年世博会）的全球网络的组成部分。作为外交官，他参与了瑞士与中国的教育，研究，创新和艺术科学的联系。以前，Felix Moesner 是瑞士波士顿公司的首席执行官，波士顿是其纽约前哨基金会的创始人，瑞士 Astana 2017 年合作开发商，瑞士驻东京大使馆科技办公室主任。自 2005 年起，他曾在东京和波士顿担任科技外交圈的共同主席和创始人。他还是瑞士商会和波士顿联合国协会的董事会成员。 Felix Moesner 毕业于麻省理工学院，苏黎世苏黎世大学，东京大学，拥有机器人博士学位和硕士/工商管理硕士学位。在私营部门，他不仅在瑞士信贷人寿保险（Japan Suisse Life Insurance Japan）担任领导职位，还在东芝公司，神奈川科技学院，Synpulse 和 Egon Zehnder 国际公司担任领导职位。多项奖励和赠款突显了他的主动承诺。

Dr. Felix Moesner is the CEO of Swissnex China and Consul of Switzerland. Established as China's first "Science Consulate" in 2008, swissnex China is part of a global network located in Boston (2000), San Francisco (2003), India (2009), Brazil (2013) and Astana (EXPO 2017). As diplomat, he engages in connecting the dots in education, research, innovation and art-science between Switzerland and China. Formerly, Felix Moesner was the CEO of swissnex Boston, founder of its New York outpost, co-developer of swissnex Astana 2017 and head of the Science and Technology Office at the Embassy of Switzerland in Tokyo. Since 2005, he was the co-chair and founder of the Science and Technology Diplomatic Circle in Tokyo and Boston. He was also board member of Swiss Chamber of Commerce and the United Nations Association of Boston. Felix Moesner, a graduate from MIT, ETH Zurich and the University of Tokyo, has a PhD in robotics and an MSc / MBA. In the private sector, he not only worked in a leading position at Credit Suisse Life Insurance Japan, but also for Toshiba Corporation, the Kanagawa Academy of Science and Technology, Synpulse and Egon Zehnder International. Several awards and grants underline his proactive commitments.

Pierre-YvesDonzé是大阪大学（日本）的商业史教授，也是瑞士弗里堡大学的客座教授。 他从事各行业（手表，奢侈品，医疗）等全球竞争与创新史的国际研究项目。 他是欧洲商业史协会理事会和日本商业史学会的成员。
https://sites.google.com/site/pydonze/

Pierre-Yves Donzé is professor of business history at Osaka University (Japan) and visiting professor at the University of Fribourg (Switzerland). He is engaged in international research projects on the history of global competition and innovation in various industries (watches, luxury, medtech). He his a member of the councils of the European Business History Association and the Business History Society of Japan.
https://sites.google.com/site/pydonze/

Georges Kotrotsios 是 CSEM 业务发展副总裁和执行董事会成员。他的技术背景是光纤系统。 他是执行董事会 EARTO（欧洲研究和技术组织协会）以及 EREA 执行委员会（欧洲航空研究中心协会）的成员。2016 年和 2012 年，他主持成立了 Fraunhofer 微电子联盟，CEA-LETI，VTT 和 CSEM 智能系统（HTA）。2015 年，他被选为瑞士工程科学院的个人成员。

Georges Kotrotsios is VP Business development and member of the Executive Board of CSEM. His technical background is in fiber optic systems. He sits in the Executive Board EARTO (European Association of Research and Technology Organisation) as well as in the Executive Board of EREA (the European Association of Aeronautics Research Centers). For 2016 and 2012 he chaired the Alliance of Fraunhofer-Microelectronics, CEA-LETI, VTT and CSEM on Smart Systems (HTA). In 2015 he has been elected individual member of the Swiss Academy of Engineering Sciences.

50 YEARS OF MICRO ELECTRONICS ON THE WRIST

Alain Porret 目前是 CSEM 的综合和无线系统副总裁，他率领一个专注于可穿戴，IoT 应用和工业传感器的超低功耗解决方案的团队。 此前，他在美国工作了 13 年，与人合伙创立了多家数字广播技术的初创企业，并参与了“硅调谐器”的兴起。 他获得 EPFL（瑞士）博士学位，期间为超低功耗 CMOS 收发器的新兴课题做出贡献。

Alain Porret is currently VP, Integrated and Wireless Systems, at CSEM, where he leads a group focusing on ultra-low-power solutions for wearables, IoT applications, and industrial sensors. Previously, he spent 13 years in the US where he co-founded several start-ups related to digital broadcast technologies and participated to the ascent of the “silicon tuner”. He earned his Ph.D. from EPFL (Switzerland) by contributing to the then-young topic of ultra-low-power CMOS transceivers.

StéphaneEmery 于 1995 年获得瑞士联邦理工学院（EPFL）的电气工程硕士学位，并于 2007 年获得日内瓦大学国际管理硕士学位。他现在领导瑞士 CSEM 的系统级芯片部门。他曾经为飞利浦/恩智浦，TranSwitch 或 DSP 集团等半导体公司工作 20 多年。 他开发了 ASIC 和系统，并在远程通信，处理器设计和面向消费者应用的片上系统等领域领导过多个国际研发团队。他也是半导体领域的多家公司的联合创始人。

Stéphane Emery received the Master degree in Electrical Engineering from the Swiss Federal Institute of Technology (EPFL) in 1995 and the MBA in International Management from the University of Geneva in 2007. He is now leading the System-On-Chip section at CSEM, Switzerland. He previously gathered 20 years of industrial experience working for several semiconductor companies like Philips/NXP, TranSwitch or DSP Group. He developed ASICs and systems and lead several international R&D groups in the fields of telecommunication, processor design and system-on-chip for consumer applications. He is also the co-founder of several companies in the semiconductors field.

Liang-fu Lo (照片和简历稍后提供，Photo and short résumé available soon)

总监（亚韩商务）三重富士通半导体公司
Director (Asia & Korea Business), Mie Fujitsu Semiconductor

Jian（Derek）Li 是 CEVA 区域销售经理，负责华东地区的销售。 于 2012 年加入 CEVA，担任 FAE，客户经理和区域销售经理。 具有十年以上嵌入式系统 IP 和半导体领域的工作经验。
Jian (Derek) Li is Regional Sales Manager of CEVA managing sales of east China. Joined CEVA in 2012 and served as FAE, Account Manager and Regional Sales Manager. Over 10 years of working experience in embedded system IP and semiconductor field.

L. Andrea Dunbar 是 CSEM 嵌入式视觉系统部门主管。 他们目前的活动重点是创建紧凑型的智能视觉系统来帮助分类和识别。 她的技术背景是光学学科，2002 年从都柏林三一学院获得博士学位。 她于 2016 年完成了“管理技术”工商管理硕士课程。她经常在洛桑的 EPFL 教学，并拥有 2 项专利和发表 30 多篇论文。

L. Andrea Dunbar is Section Head of Embedded Vision Systems, at CSEM. Their current activities focus on creating compact intelligent vision systems for classification and recognition. Her technical background is in optics and she obtained her PhD in 2002 from Trinity College, Dublin. She completed her MBA in Management of Technology in 2016. She teaches regularly at EPFL, Lausanne and is the author of 2 patents and over 30 published papers.

Simon Gray 于 2008 年加入 CSEM，负责 CSEM 超低功耗集成系统部门的营销和业务开发。 此前，他曾在欧洲半导体公司工作，包括飞利浦和思科技，担任技术和营销管理职务。 他拥有诺丁汉大学物理学学士学位和英国开放大学工商管理硕士学位。

Simon Gray joined CSEM in 2008 and is responsible for marketing and business development in CSEM's Ultra Low Power integrated systems division. Previously he worked for European semiconductor companies, including Philips and Semtech, in both technical and marketing management roles. He has a BSc in Physics from Nottingham University and an MBA from Open University, UK.
